

an-vision

Product Catalog

New Product Catalog for Veterinary Ophthalmology

Dear Valued Customers and Partners,

It is with great pleasure and pride that we present the latest product catalog from [an-vision](#). This new comprehensive product catalog includes our wide range of high-quality products offered along with QR codes for additional product information and specifications.

[an-vision](#) is renowned for its innovative and superior quality products. We take great care in providing the latest and most advanced products for veterinary ophthalmology. All our products are fully tested, and quality inspected, to ensure that you have the best outcome for your patients. We are a LAVG audited manufacturing for veterinary medical technical products.

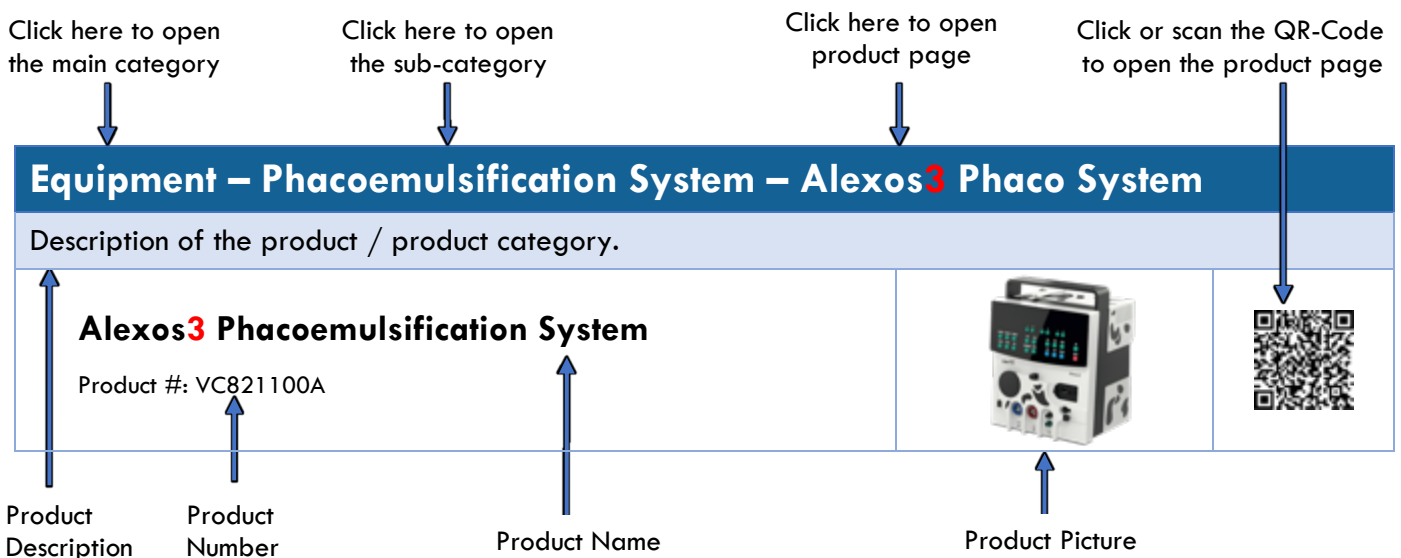

Our extensive instrument portfolio is available as a separate catalog. This allows us to provide you with the most current and accurate information as new instruments become available.

At [an-vision](#), we are committed to delivering exceptional products and customer service. Customer satisfaction is our priority. Our dedicated team is here to be your partner and help you with your needs. Should you have any questions or require further assistance, please contact our customer service team, or visit our website www.an-vision.com.

Warm regards,

The [an-vision](#) Team

Instructions - How to use this Product Catalog

Our Product Highlights

Eye Drops – Hyaluronate with Amino acids

- Long-chained, ultrapure 1.2% hyaluronate and amino acids form a long-lasting film.
- To be used in cases of Dry Eye.
- Proven advantages of high-molecular weight HA.

an-HyPro

Product #: ED1546

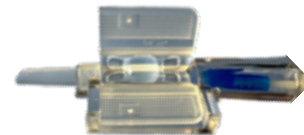

Intraocular Lenses – preloaded an-PLD

- Hydrophobic, fully preloaded IOL with modified plate haptic.
- D+41, OD 6mm, 360° barrier.
- Improving your surgery workflow.

an-PLD - Preloaded Intraocular Lens for Dogs

PLD-12 Product #: IL2171

PLD-13 Product #: IL2148

Tension Rings – Preloaded Capsular Tension Rings – an-PTR

- The pre-hooked CTR on the injector is quickly ready for implantation.
- Controlled and smooth CTR implantation through a 3.0mm incision.
- Slightly edged to delay PCO and stabilizing subluxated lenses.

an-PTR - Preloaded Capsular Tension Rings

12.5 mm - Product #: TR2192

13.5 mm - Product #: TR2193

14.5 mm - Product #: TR2194

Glaucoma Implant

- The an-GlauDrain is a non-valved drainage device designed for refractory glaucoma cases featuring a flexible base plate that adjusts to different globe sizes.
- Its foldable design allows for comfortable placement in the subconjunctival pocket.

an-GlauDrain

Product #: SH1808

Single Use Products – Microneedles

- For precise injection in a macroscopic setting.
- Designed for injection into the cornea or into the suprachoroidal space.

1. **an-CorJec Microneedle with Adapter**

30G needle 15°, Adapter 300µm - Product #: SU2046

30G needle 45°, Adapter 600µm - Product #: SU2045

30G needle 45°, Adapter 1000µm - Product #: SU2044

2. **an-SuproJec Microneedle with Adapter**

30G needle 45°, Adapter 1100µm & 1400 µm - Product #: SU2059

Equipment – Phacoemulsification System – Alexos³ Phaco System

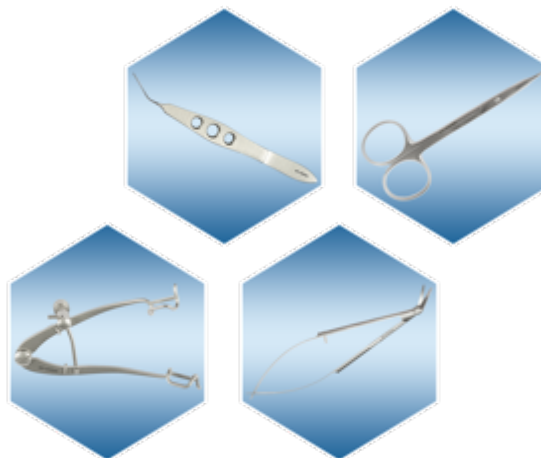

- The Alexos³ is a compact, portable platform for cataract surgery in small and large animals, known for its fast, safe, and economical performance.
- Utilizing fluidics based on physics, it offers exceptional precision.
- The innovative SPEEP pump enhances efficiency and precision in cataract surgery.
- Features include easyPhaco for chamber stability and HF capsulotomy for easier capsulorrhexis.

Alexos³ Phacoemulsification System

Product #: VC821100A

Intraocular Lenses

Intraocular Lenses – Dogs

Wide range of intraocular lenses with varying optical and haptic characteristics to best suit your patients. Square edged, hydrophilic or hydrophobic acrylate.

<p>1. an-PLD - Preloaded Intraocular Lens for Dogs</p> <p>PLD-12 Product #: IL2171 PLD-13 Product #: IL2148</p>		
<p>2. Fo-X for Dogs</p> <p>Fo-X-10 - Product #: IL1978 Fo-X-11 - Product #: IL1985 Fo-X-12 - Product #: IL1714 Fo-X-13 - Product #: IL1715 Fo-X-14 - Product #: IL1716</p>		
<p>3. SD7 for Dogs</p> <p>SD7-12 - Product #: IL2075 SD7-13 - Product #: IL2073 SD7-14 - Product #: IL2084</p>

Intraocular Lenses – Cats

Diffraction optic structure enabling soft lens opening while also allowing for easy implantation into the capsular bag.

MC1 for Cats

MC1-12 - Product #: IL1190

MC1-13 - Product #: IL1191

MC1-14 - Product #: IL1192

Intraocular Lenses – Horses

Diffraction optic structure enabling soft lens opening while also allowing for easy implantation into the capsular bag.

MH9 for Horses

MH9-21 - Product #: IL1203

MH9-22 - Product #: IL1204

MH9-24 - Product #: IL1205

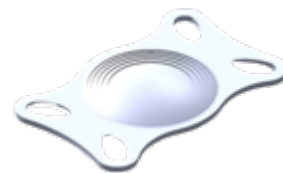

Intraocular Lenses – Rabbits

Foldable, single-piece IOL, diffraction structure.

MR1 for Rabbits

Product #: IL1440

Intraocular Lenses – IOL Injectors – Accuject, EL1, Viscoject

Single-use injector systems to accommodate each surgeon's preference.

1. ACCUJECT™

Product #: IL1207

2. VISCOJECT™

Product #: IL1788

3. EL1 Injector

Product #: IL2104

Tension Rings

Tension Rings – Preloaded Capsular Tension Rings – an-PTR

The an-PTR is designed to improve your surgery workflow and ensures a smooth and controlled tension ring implantation. For the stabilization of subluxated lenses and to delay PCO.

an-PTR – Preloaded Capsular Tension Rings

- 1 tension ring per package preloaded on single use injector
- 12.5 mm - Product #: TR2192
- 13.5 mm - Product #: TR2193
- 14.5 mm - Product #: TR2194

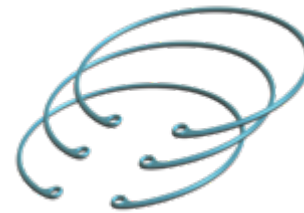

Tension Rings – Blue PMMA CTR

For the stabilization of subluxated lenses and to delay PCO.

an-CTR

- 1 tension ring per package with single use injector included
- 12.5 mm - Product #: TR1208
- 13.5 mm - Product #: TR1209
- 14.5 mm - Product #: TR1210

Tension Rings – Capsular Tension Ring Injector

Single use injector for CTRs.

Single Use Capsular Tension Ring Injector

Product #: TR1676

Glaucoma Shunt

Glaucoma Implant

A non-valved, foldable drainage device for refractory glaucoma cases.

an-GlauDrain

Product #: SH1808

Viscoelastics

Viscoelastics – Hydroxypropylmethylcellulose (HPMC)

Highly dispersive and cost-effective viscoelastic to protect endothelial cells.

an-viscose 2% (HPMC)

Box with 5 sterile 2 ml syringes

Product #: VE1399

Viscoelastics – Hyaluronate (HA)

Highly-purified, bio-fermented sodium hyaluronate.

Good maintenance of anterior chamber and space, cohesive behavior and easy to remove.

1. an-bfh 1.8% (HA)

Box with 5 sterile 2 ml syringes

Product #: VE1284

2. an-bfh 2.2% (HA)

Box with 5 sterile 2 ml syringes

Product #: VE1376

Solutions

Solutions – Staining Solution

For temporary staining of the lens capsule for easy visualization during intraocular surgery.

an-blue

Package with 5 syringes or vials with 1 ml content in each.

Syringe - Product #: LI1287

Vial - Product #: LI1981

Sutures

Sutures – Absorbable Sutures

Predictable absorption, excellent knot security, reliable bioabsorbability.
50% tensile strength remaining following 14 days.

Suture - PGA

Packaging: Comes in box of 12

USP: 5/0 PGA, Lancet/Spatula - Product #: SR1315

USP: 6/0 PGA, Lancet/Spatula - Product #: SR1293

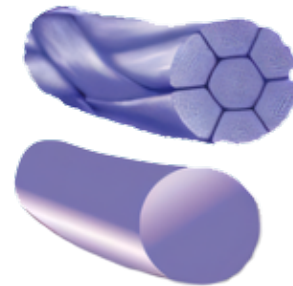

USP: 7/0 PGA, Lancet/Spatula - Product #: SR1294

USP: 8/0 PGA, Lancet/Spatula - Product #: SR1295

USP: 9/0 PGA, Lancet/Spatula - Product #: SR1296

USP: 10/0 PGA, Lancet/Spatula - Product #: SR1314

USP: 6/0 PGA, Reverse Cut - Product #: SR1427

Sutures – Non Absorbable Sutures

Nylon: Monofilament polyamide with high tensile strength and very good knotting features.
Silk: Braided surgical silk on twisted core for greater tensile strength.

1. Suture - Nylon

Box of 12 sutures

USP: 9/0 Nylon, Lancet/Spatula - Product #: SR1297

USP: 10/0 Nylon, Lancet/Spatula - Product #: SR1298

2. Suture - Silk

Box of 12 sutures

USP: 6/0 Silk, Reverse Cut

Product #: SR0243

Skin Filler

Skin Fillers – Lid Augmentation

Temporary eyelid augmentation for cases of entropion.

an-cbfh 2.4% (ALAYNA)

Box contains 2 syringes of 1 ml

Product #: VE1286

Corneal Care

Eye Drops – Hyaluronate with Amino Acids

Long-chained, ultrapure 1.2% hyaluronate and amino acids form a long-lasting film. To be used in cases of Dry Eye. Proven advantages of high-molecular weight HA.

an-HyPro

Product #: ED1546

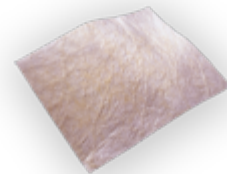

Corneal Care – BioSIS

Strong, pliable, biological scaffold for cell repair of the damaged cornea.

1. Vetrix® BioSIS, ECM Bioscaffold

7cm x 10cm, Multi-Layer

Product #: V1000

2. Vetrix® BioSIS Plus⁺, multi-layer discs

15mm (4 pack), Individually sterilized

Product #: V5500

3. Vetrix® BioSIS, single-layer discs

15mm (4 pack), Individually sterilized

Product #: V5000

Corneal Care – Vetric® EyeQ Amnion Ocular Discs

Provides a healing environment suited for corneal tissue repair.

1. Vetric® EyeQ Amnion Ocular Discs

15mm (2 pack), Individually sterilized

Product #: VEQ1550

2. Vetric® EyeQ Amnion Chorion Ocular Discs

15mm (2 pack), Individually sterilized

Product #: VEQ1510

Eye Drops – Amniotic Eye Drops

Easy-to-use, non-surgical option for corneal defects. Utilizes innate concentrations of anti-inflammatory factors to modulate inflammation and promote rapid epithelialization.

Vetric EyeQ Amniotic Eye Drops

5ml

Product #: VEQD50

Silicone Prosthesis

Prosthesis – Small Animal Sizes / Large Animal Sizes

Intraorbital or intrascleral prosthesis following enucleation or evisceration of the eye.

1. an-Silpro

Small Animal

- 12 mm - Product #: SP1247
- 13 mm - Product #: SP1248
- 14 mm - Product #: SP1249
- 15 mm - Product #: SP1250
- 16 mm - Product #: SP1251
- 17 mm - Product #: SP1252
- 18 mm - Product #: SP1253
- 19 mm - Product #: SP1254
- 20 mm - Product #: SP1255
- 21 mm - Product #: SP1256
- 22 mm - Product #: SP1257
- 23 mm - Product #: SP1258
- 24 mm - Product #: SP1259
- 26 mm - Product #: SP1260
- 28 mm - Product #: SP1261

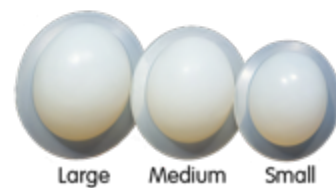

Large Animal

- 33 mm - Product #: SP1277
- 36 mm - Product #: SP1278
- 39 mm - Product #: SP1279

2. Top Hat, Large Animal

- Top Hat: Small Medium, Large
- Small - Product #: SP1280
- Medium - Product #: SP1281
- Large - Product #: SP1282

Vitreoretinal Surgery

Vitreoretinal Surgery – Perfluorocarbon

Aids in relocation and fixation of detached retinas during vitreoretinal surgery.

RT - DECALIN

7 ml vial

Product #: LI2058

Vitreoretinal Surgery – Silicone Oil

Long term tamponade in the vitreoretinal treatment of retinal detachment, cracks and trauma.

Silicone Oil RT SIL-OL 5000

10 ml syringe

Product #: LI1288

Single Use Products

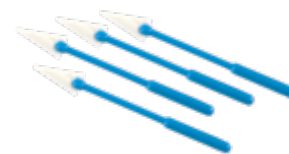

Single Use Products – Eye Spear

Highly absorbent PVA material for rapid absorption and gentle manipulation of tissue.

Eye Spear

PVA, Box of 15x 5 spears per pouch, sterile.

Product #: 9001

Single Use Products – Absorbent Stick

Used for fluid absorption at the surgical site.

Absorbent Stick

Sterile - Box with 20 packages of 5 sticks each - Product #: 9003

Non-sterile - Box of 250 sticks - Product #: 9004

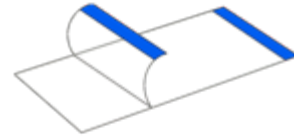

Single Use Products – Incision Film

Adhesive film for microsurgery to cover lashes, lids, brow, etc.

Adhesive Non-Glare Incision Film

Small incise adhesive film for microsurgery.

Product #: 9701

Single Use Products – Instrument wipes

Lint-free PVA for cleaning delicate instruments. Soft when moistened and will not snag on blades or tips.

Instrument Wipe

PVA, 20 per box, sterile

Product #: 9101

Single Use Products – Ophthalmic Surgical Drape

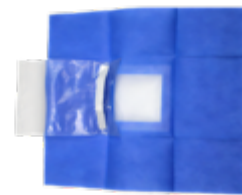

Adhesive incision film and collection bag suited specifically for ophthalmic surgery.

Ophthalmic Surgical Drape

Box of 10. Adhesive area: 9 x 9 cm (3.5 x 3.5 in)

100 x 120 cm (39 x 48 in) - Product #: SU2164

70 x 70 cm (27.5 x 27.5 in) - Product #: SU2163

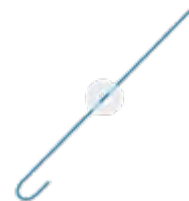

Single Use Products – Iris Retractors – Capsular Hooks

Our **an-Iris Hooks** are used for temporary retraction in cases of insufficient pupil dilation during cataract surgery. The **an-Capsular Hooks** are used in cases of zonular weakness or lens subluxation for temporary retraction.

1. **an-Iris Retractors - Nylon**

Box of 5, sterile, single-use iris hooks

Product #: HO2097

2. **an-Capsular Hooks - PMMA**

Box of 5, sterile, single-use capsular hooks

Product #: HO2098

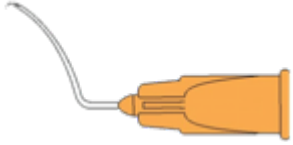

Single Use Products – Knives

Microsurgical single-use knives.

<p>1. Single-use Crescent knives, 2.2 mm, angled</p> <p>Box of 10 Product #: 62003</p>		
<p>2. Single-use Slit/Phaco knives, 45° angled</p> <p>Box of 10 each Size: 2.8 mm - Product #: 62018 Size: 3.0 mm - Product #: 62019 Size: 3.2 mm - Product #: 62020</p>		
<p>3. Single-use MVR Sclerotomy knives</p> <p>20G; Box of 10 each Product #: 62005</p>		
<p>4. Single-use Stab knives</p> <p>Single-edge 15°; Box of 10 each Product #: 62000</p>		
<p>5. Sterile Beaver Blades #64 (Box of 10)</p> <p>Product #: 64/ST</p>		
<p>6. Sterile Beaver Blades #65 (Box of 10)</p> <p>Product #: 65/ST</p>		

Single Use Products – Cannulas

Ophthalmic cannulas.

<p>1. Capsulorrhexis Cystotome Cannula</p> <p>27G, sterile, Box of 10, Single-use Product #: 3327</p>		
<p>2. Hydrodissector-Flattened</p> <p>35° angled, 25G, 8 mm flat blunt tip sterile, Box of 10, Single-use Product #: 4025</p>		

Single Use Products – Microneedles

Designed for precise injection into the cornea or into the suprachoroidal space.

<p>1. an-CorJec Microneedle with Adapter</p> <p>30G needle 15°, Adapter 300µm - Product #: SU2046 30G needle 45°, Adapter 600µm - Product #: SU2045 30G needle 45°, Adapter 1000µm - Product #:SU2044</p>		
<p>2. an-SuproJec Microneedle with Adapter</p> <p>30G needle 45°, Adapter 1100µm & 1400 µm - Product #: SU2059</p>		

Test Strips

Test Strips – Fluorescein Sodium Test Strips

Aids to detect corneal and conjunctival defects and to assess nasolacrimal patency.

Fluorescein Sodium Test Strips

Box containing 100 or 300 sterile strips
100 sterile tips - Product #: SU1304
300 sterile tips - Product #: SU1817

Test Strips – Schirmer Tear Test Strips

Aids in the measurement of tear production.

Schirmer Tear Test Strips

Box containing 100 sterile strips
Product #: SU1305

Test Strips – Rose Bengal Test Strips

Staining of dead and degenerated cells/mucus. Aid in the diagnosis of KCS and superficial corneal epithelial abnormalities.

Rose Bengal Test Strips

Box containing 100 sterile strips
Product #: SU1306

Test Strips – Lissamine Green Test Strips

Staining of dead or degenerated conjunctival cells. Early detection of dry eye.

Lissamine Green Test Strips

Box containing 100 sterile strips
Product #: SU1307

Bandage Lenses

Bandage Lenses – an-Bandage Lenses for Cats, Dogs and Horses

Transparent protection to cover corneal lesions resulting from abrasions and erosions or corneal ulcers. Veterinary specific for dogs, cats and horses.

1. an-Bandage Lenses for Cats

- C1 (Diameter 16 mm, Base curve 9.2 mm) - Product #: BL1212
- C2 (Diameter 14 mm, Base curve 8.3 mm) - Product #: BL1213
- C3 (Diameter 15.5 mm, Base curve 8.5 mm) - Product #: BL1214
- C4 (Diameter 16 mm, Base curve 8.8 mm) - Product #: BL1215
- C5 (Diameter 18 mm, Base curve 9.4 mm) - Product #: BL1216

2. an-Bandage Lenses for Dogs

- D1 (Diameter 18 mm, Base curve 9.6 mm) - Product #: BL1217
- D2 (Diameter 18 mm, Base curve 9.8 mm) - Product #: BL1218
- D3 (Diameter 20 mm, Base curve 10.4 mm) - Product #: BL1219
- D4 (Diameter 15.5 mm, Base curve 8.5 mm) - Product #: BL1220
- D5 (Diameter 22 mm, Base curve 11.4 mm) - Product #: BL1221
- D6 (Diameter 22 mm, Base curve 11.8 mm) - Product #: BL1222
- D7 (Diameter 20 mm, Base curve 11.2 mm) - Product #: BL1223
- D8 (Diameter 20 mm, Base curve 10.8 mm) - Product #: BL1224
- D9 (Diameter 18 mm, Base curve 10.0 mm) - Product #: BL1225

3. an-Bandage Lenses for Horses

- H1 (Diameter 34 mm, Base curve 18 mm) - Product #: BL1226
- H2 (Diameter 32 mm, Base curve 17 mm) - Product #: BL1227
- H3 (Diameter 26 mm, Base curve 15 mm) - Product #: BL1228
- H4 (Diameter 30 mm, Base curve 16.5 mm) - Product #: BL1229
- H5 (Diameter 38 mm, Base curve 19.5 mm) - Product #: BL1230
- H6 (Diameter 36 mm, Base curve 20 mm) - Product #: BL1231

Bandage Lenses – First Aid - Contact Lenses

Contact lens for short term corneal protection.

Emergency contact lenses - Xtensa SiHy

Product #: SU1400

Equipment

Equipment – Ultrasound – UltraView XL

Special ophthalmic imaging system and ultrasound biomicroscope.
Additional probes can be added at any time.

<p>1. UltraView XL Ultrasound System Product #: OPI-C92-017</p>		
<p>2. 12 MHz E-Tech Ophthalmic Probe Product #: OPI-C1056-006</p>		
<p>3. 20 MHz E-Tech HD Ophthalmic Probe Product #: OPI-C1056-007</p>		
<p>4. E-Tech Water Path Probe with accessories Product #: OPI-C1556-006</p>		
<p>5. 35 MHz Transducer Product #: OPI-C190200</p>		
<p>6. 50 MHz Transducer Product #: OPI-C190210</p>		

Equipment – Tonometer – TONOVET

Tool that accurately measures the IOP (intraocular pressure) on animal patients. It is painless and therefore creates no anxiety.

<p>1. TONOVET Pro Product #: TO2233</p>		
<p>2. TONOVET Plus Product #: TO1625</p>		

<p>3. TONOVET Product #: TO2002</p>		
<p>4. TONOVET Probes (100 Probes / Box) Product #: TO0872</p>		

Equipment – Phacoemulsification System – Alexos³ Phaco System

The Alexos³ is a Phacoemulsification system that makes cataract surgery incredibly fast, safe, calm, and – thanks to its excellent mobility – economical and accessible anywhere.

<p>Alexos³ Phacoemulsification System Product #: VC821100A</p>		
--	---	---

Equipment – Phacoemulsification System – Phaco Accessories

Phaco tips for a wide variety of species (dogs, cats, birds/exotics & horses, etc).

<p>1. easyPhaco Handpiece Product #: VG800011</p>		
<p>2. easyPhaco Pack for Small Animals, single-use Product #: VV806840</p>		
<p>3. easyPhaco Tip for Large Animal Product #: VV800075</p>		
<p>4. easyPhaco Tip for Small Animals Product #: VV800740</p>		
<p>5. easyPhaco Tip for Small Exotics Product #: VV800831</p>		

<p>6. Irrigation Sleeve for Large Animals Product #: VV603203</p>		
<p>7. Irrigation Sleeve for Small Animals Product #: VV603209</p>		
<p>8. Irrigation Sleeve for Small Exotics Product #: VV603231</p>		
<p>9. Key for Phaco Tips Product #: VE800100</p>		
<p>10. Test Chamber for Phaco Product #: VV803100</p>		

Equipment – Phacoemulsification System – Irrigation & Aspiration Accessories

Veterinary specific length and lumen for precise cortex removal.

<p>1. I/A Handpiece Product #: VE655000</p>		
<p>2. Quick Tip for I/A, 45° Product #: VE655236</p>		
<p>3. Quick Tip for I/A, Straight Product #: VE655436</p>		
<p>4. Quick Tip for I/A, Large Animal Product #: VE655075</p>		

Equipment – Phacoemulsification System – Diathermy Accessories

Fine and direct control of HF power to cut the capsular bag. Gentle alternative to tearing the capsular bag with forceps. Straight tip used for cautery of iris bleeds.

<p>1. Diathermy Handpiece Product #: VE201712</p>		
<p>2. Capsulotomy Tip for Small Animals Product #: VE201726</p>		
<p>3. Capsulotomy Tip for Large Animals Product #: VE201735</p>		

Equipment – Phacoemulsification System – Vitrectomy Accessories

Vitrectomy cutter for anterior and posterior vitrectomy.

<p>1. Continuous Flow (CF) Vitrectomy Cutter Product #: VV104110</p>		
<p>2. Vitrectomy Irrigation Sleeve Product #: VG601351</p>		

Equipment – Phacoemulsification System – I/A Tubing Cassette

I/A Tubing cassettes in variable combinations.

<p>1. I/A Tubing Cassette for Alexos, Alexos³ & Faros Box of 10 Tubing cassette only Product #: VV621010</p>		
<p>2. I/A Complete Tubing Pack for Alexos, Alexos³ & Faros Box of 10 Tubing cassette, draining bag, infusion set, and protection bag Product #: VV621010A</p>		

<p>3. I/A Tubing Set</p> <p>Box of 3, Reusable Product #: VV621003</p>		
<p>4. Phaco Pack</p> <p>Box of 10 Tubing system, easyTip 2.8 mm 30°, irrigation sleeve, phaco key, test chamber, infusion set, drainage bag, cover for remote control, sterile/single use. Product #: VV621011AE</p>		

Equipment – ERG – RETIport 3S

One channel system with Koiijman electrode for photopic and scotopic tests. Small, portable unit that can be used with a laptop computer.

<p>1. RETIport 3S electroretinograph</p> <p>Product #: ER1754</p>		
<p>2. Electrode cable set</p> <p>Product #: ER0552</p>		
<p>3. Jet electrode</p> <p>Product #: ER0326</p>		
<p>4. Koiijman electrode, 17mm</p> <p>Product #: ER0614</p>		
<p>5. Subdermal Needle Electrodes</p> <p>Single needle - Product #: ER1011 Box of 10 needles - Product #: ER1811</p>		

Equipment – Electroretinograph – LED Flash

Flash stimulator and Light emitting diodes (LED) photic stimulator.

1. LED Flash, RETIport

Product #: ER1740

2. LED Flash, RETIport 3S

Product #: ER1755

Equipment – Fundus Camera – Aurora IQ Fundus Camera

Non-mydratic handheld fundus camera with 50° field of view for retinal and eye surface imaging.

Aurora IQ Fundus Camera

Full Set - Product #: FC2162

Retinal Set - Product #: FC2209

Equipment – Fundus Camera – Smartscope

Non-mydratic handheld fundus camera with 40° field of view for retinal and eye surface imaging.

Smartscope Pro Fundus Camera

Full Set - Product #: FC1649

Retinal Set - Product #: FC2103

Equipment – Iontophoresis & Riboflavin

IONTOFOR-VET is an administration system to deliver products into the cornea by IONTOPHORESIS.

1. RIBOVET

Riboflavin 0,1%, 1.5ml vial, Box of 5, sterile

Product #: IO2198

2. K-IONO Generator

Product #: IO2196

3. Cationic Cable

for K-IONO Generator (red connector)

Product #: IO2208

<p>4. IONTOFOR-VET Kit IONTOFOR-VET Electrode, 1 x Riboflavin 0.1%, 1.5ml vial, sterile) Product #: IO2197</p>		
<p>5. IONTOFOR-VET Electrode Product #: IO2199</p>		
<p>6. IONTOFOR-VET Electrode Foam Insert Product #: IO2100</p>		

Equipment – 810nm Diode Laser – FOX Laser

The FOX 810 is a highly customizable, affordable, and powerful laser that can be applied to a multitude of ophthalmic applications.

<p>1. FOX 810nm Diode Laser Product #: LS03200</p>		
<p>2. EmunDo PTT Dye Box of 3 Product #: ZU01000</p>		
<p>3. Blunt-end Needle 22G, I-40 Box of 25, sterile Product #: ZU01156s</p>		
<p>4. Connector Fiber Sterile Product #: LL13063</p>		
<p>5. Focus Handpiece, Green Product #: HS18004</p>		
<p>6. HiFlex Fiber 300µm Box of 5, sterile Product #: LL13062s</p>		

<p>7. HiFlex Fiber Stripper</p> <p>Product #: WE01440</p>		
<p>8. Laser Indirect Ophthalmoscope</p> <p>Product #: ZU11054</p>		
<p>9. MicroCyclo Probe</p> <p>Box of 5, sterile</p> <p>Product #: HS11036s</p>		
<p>10. Safety Goggles</p> <p>Product #: AS01033</p>		
<p>11. Surgery Handpiece</p> <p>Product #: HS11018</p>		
<p>12. Therapy Handpiece, Black</p> <p>Product #: HS18005</p>		
<p>13. VET Cyclophoto Probe</p> <p>Sterile</p> <p>Product #: LL13021</p>		

Surgical Training Models and Accessories

Surgical Training Models and Accessories

Cutting-edge surgical training models for veterinary ophthalmology.
An ideal tool for practicing surgical techniques and also used for corneal transplantation.

<p>1. Brachycephalic Dog Head Product #: BDHO1</p>		
<p>2. Mesocephalic Dog Head (Long Nose) Product #: BDHO2</p>		
<p>3. Hard Support Product #: ESO2PH</p>		
<p>4. Soft Support Product #: ESO2PS</p>		
<p>5. Head Pack - Brachycephalic Dog Product #: HPB01</p>		
<p>6. Head Pack Mesocephalic Dog (Long Nose) Product #: HPM01</p>		
<p>7. Hard Support with feign eyelids for pig's eyes Product #: ES01P-H</p>		
<p>8. Soft Support with feign eyelids for pig's eyes Product #: ES01P-S</p>		
<p>9. Support for Bovine eyes and annexa Product #: ES01V</p>		

State of the Art Quality and Design.

For us at **an-vision**, it is important to produce products of the best possible quality and in exactly the design required for use in veterinary ophthalmology.

This begins with the selection of raw materials, attention to manufacturing processes according to GMP and quality control and finally our exceptional service to you.

an-vision is well-known because we strive to develop innovative products to improve your surgical needs and to advance your treatments in veterinary ophthalmology.

Do you know about an-vision's courses?

The courses organized by **an-vision** are known worldwide for many years.

Led by internationally renowned instructors, participants will enhance their skills and practice advanced techniques in a highly interactive setting. Limited to 40 attendees, these courses offer lectures and hands-on wetlab sessions, featuring 20 fully-equipped workstations.

Please see on our website the upcoming courses www.an-vision.com/conferences.
